

Naira Othman Tamer

Backend .NET Developer

Assiut (open to relocate to Cairo – Nasr City) | +20 106 990 3646 | naira.othman.tamer@gmail.com

[LinkedIn](#) | [GitHub](#)

Profile

Backend Developer specialized in **C#** and **.NET** with experience building scalable **RESTful APIs** and **web applications**. Completed **6-month intensive Full-Stack .NET Track at ITI** with focus on **Clean Architecture**, **Entity Framework Core**, and team-based **Agile** projects.

Experience

Software Development Trainer (Part-time) | **EYouth**

April 2026 – Present

- Teaching a part-time programming track covering fundamentals through web development, guiding trainees from core programming concepts to building practical web applications.

Internship

Backend Advanced Bootcamp (.NET Track) | **Elevate Tech**

Feb 2026 – Present

- Building advanced backend services with **ASP.NET Core**, **RabbitMQ**, **CQRS**, and **Vertical Slice Architecture**.
- Working on team projects with structured Code Review sessions using Jira, GitHub Actions, and Slack.

Full-Stack Web Development (.NET) | **ITI (Information Technology Institute)**

Jul 2025 – Dec 2025

- Built RESTful APIs using ASP.NET Core with JWT auth, Entity Framework Core, LINQ, AutoMapper, and Redis caching.
- Applied Clean Architecture, SOLID principles, and Agile workflows with Git/GitHub in team-based projects.

Projects

Fitness App | [GitHub-Repo](#) 

- Independently developed three microservices — **Fitness Calculation Engine (FCE)**, **Workout Service**, and **Progress Service** — within a team-built fitness platform, using **Minimal APIs**.
- Structured each service using **DDD** and **Vertical Slice Architecture**, with a **Factory Pattern** for managing multiple database contexts.
- Enabled asynchronous, decoupled communication between services via **MassTransit** and **RabbitMQ**, containerized with **Docker** for consistent local and deployment environments.

LMS Platform | [GitHub-Repo](#) 

- Developed **LMS REST API** managing diploma/quiz content lifecycles, server-enforced timed quiz attempts with auto-submission, and per-attempt shuffled question/answer ordering to prevent cheating.
- Structured the service using **Vertical Slice Architecture** with **CQRS**, **Repository**, and **Unit of Work** patterns, adding admin analytics reporting and endpoint rate limiting.

Order Management System | [GitHub-Repo](#)

- Developed **RESTful API** for order management handling products, orders, customers, and invoices with tiered discounts, stock validation, and automated invoice generation.
- Designed **Onion Architecture** with multiple payment methods, email notifications, and **role-based access control (RBAC)** using JWT.

UniRoute - Trip Aggregation System | [GitHub-Repo](#)

- Designed trip aggregation platform consolidating bus trips from multiple companies using web scraping (Playwright, HtmlAgilityPack) with on-demand scraping triggered by user searches.
- Implemented **Clean Architecture** with fuzzy string matching (FuzzySharp) for intelligent data normalization and duplicate prevention.
- Automated **background jobs** using **Hangfire** for scheduled scraping, data mapping, and cleanup operations.

Technologies

- **Languages & Frameworks:** C++, C#, .NET Core, ASP.NET Core (MVC, Web API), Entity Framework Core, SQL
- **Architecture & Patterns:** Clean Architecture, Onion Architecture, Vertical Slice, CQRS, DDD, Repository, Unit of Work, Dependency Injection, SOLID, OOP, Microservices, Saga Pattern
- **Databases & Performance:** SQL Server, LINQ, LinqKit (PredicateBuilder), Dapper, Redis Caching, Hangfire, async/await, Query Optimization, Rate Limiting
- **Tools & APIs:** Git, Postman, Visual Studio, JWT, Swagger, AutoMapper, Autofac, Docker, API Gateway

Certificates

- **Foundational C# with Microsoft** ([freeCodeCamp](#)), **C# (Basic)** ([HackerRank](#)) & **Problem Solving** ([HackerRank](#))

Education

Postgraduate Diploma in Computer Science

2026 – Present

Faculty of Graduate Studies for Statistical Research, Cairo University

BS in Veterinary Medicine

Faculty of Veterinary Medicine, Assiut University

Background & Skills

- Background in pharmaceutical industry with proven team collaboration, task management and professional communication skills.
